Checking Quorum. The conference is attended by 28 representatives out of 40. **Quorum verified, the conference can continue.**

7. VILNIUS TECH SR EF activity report presentation;

VILNIUS TECH SR EF chairperson Austėja Krinciūtė presents the VILNIUS TECH SR EF activity report for the March 18th, 2025 – October 20th, 2025 period.

8. Question session;

VILNIUS TECH SR EF chairperson Austėja Krinciūtė answers the questions that may have arisen about the VILNIUS TECH SR EF activity report for the March 18th, 2025 – October 20th, 2025 period.

Saulius Paukštė(Kikfu-22): Looking at the 1.1 point, you mentioned that a few of the module laboratory works are changing into practical works. Do you know which modules are changing?

Answer: Not currently, no.

Question extension: How many modules are changing?

Answer: We know that several modules are changing.

Question Extension: When are they changing?

Answer: We don't have a very clear assumption on when, but we hope that next year the changes will be implemented.

Artūras Medeišis(EF Dean): You mentioned a few surveys, conclusions. What do we, as the administration, are doing well or bad? How could we improve our work? Perhaps you could comment that there were any shortcomings from us?

Answer: One of the most recent surveys was about the final baccalaureate work tutors, recently we forwarded the results to you, we haven't received any feedback from you. The biggest result was achieved and the most effort was dedicated to the General Study Program Review. A grand total of 61 students took part and told their opinion, we have forwarded the information to you, the administration. Some students have mentioned that positive results are already noticeable.

Question extension: Do you think the deanery is doing a good job?

Answer: Yes, at least right now – everything is good.

Saulius Paukštė(Kikfu-22): As in the 1.1 mentioned point about final work surveys, don't you think that it would be necessary to share the results with group representatives and contact persons 4th years? Me, as a 4th year contact person, I would want to receive that information and share it with my group, and I'd assume I'm not the only one.

Answer: Because in the 4th year, studies start in November, the plan was to share that information with the administration and at the start of November, share it with 4th year group representatives & contact persons.

Question extension: As far as I know, there were only 12 answers. Why do you think there was so little activity and how will you avoid that the next time?

Answer: As I was a 4th year student myself, we were a little late with publishing the survey, after that students lost their student emails and it is likely that they couldn't reach the survey.

Saulius Paukštė (Kikfu-22): In the spring, Students' Representations of every faculty received comments from the Control Commission (perhaps 4.4 point) You mentioned, that you invited them to meetings, did we take notice of any of their comments, how we should change our activities?

Atsakymas: We received no bad comments, we had a meeting in October, we exactly received a comment that we are one of the most progressive representations.

9. VILNIUS TECH SR EF financial report representation;

VILNIUS TECH SR EF chairperson Austėja Krinciūtė presents the financial report presentation for the March 18th, 2025 – October 20th, 2025 period.

10. Question session;

VILNIUS TECH SR EF chairperson Austėja Krinciūtė answers the questions that may have arisen during the presentation of the VILNIUS TECH SR EF financial report for the March 18th, 2025 – October 20th, 2025 period.

Artūras Medeišis(EF Dekanas): I have noticed that your savings are growing and growing, do you have any plans where you want to spend them?

Atsakymas: Our savings are growing, and we're organizing a Halloween movie night. We plan to buy snacks for the students, so we'll spend some money, but within reason. When I joined the Students' Representation as a first-year, we had only 300-400 Euros saved for a long time, so we learned to save to avoid financial problems if something was lacking.

11. VILNIUS TECH SR EF activity and financial reports' ratification;

In the voting for the ratification of the VILNIUS TECH SR EF activity report the votes that took part:

The number of participating representatives & contact persons – 28

For – 28

Against – 0

Withhold their vote – 0
