

Motivational letter

For the role of President of VILNIUS TECH SR

Hello, I am Gabrielė Kovalevskytė, a second-year student of Multimedia and Computer Design at Vilnius Gediminas Technical University. From my first days here, I recognized that VILNIUS TECH Students' Representation is a community which I want to contribute to and help develop. It is not only a supportive network, but also a group dedicated to helping others – those uncertain about how to or unable to resolve certain study process related challenges themselves.

I am currently the Coordinator of International Student Affairs at the Faculty of Fundamental Sciences. In this role, I have not only gained a deeper understanding of the university's internal structure and decision-making processes, but also a better appreciation for the importance of ensuring that every student feels and actually is heard and represented.

Working closely with international students, I have witnessed firsthand the importance of clear communication, empathy, and consistent effort in finding effective solutions. Being part of the Students' Representation, I realized that helping students is not just a task for me – it is a path I want to follow.

I see the position of President not only as a representation of the organization, but also as an opportunity to strengthen the community, encourage cooperation between faculty Student Representation's, increase student involvement, and ensure that the voice of students at the university is heard loudly and clearly. I believe that leadership is about continuous growth, the ability to listen, and taking responsibility.

I am ready to learn, improve, and collaborate with the team to develop solutions that foster a more sustainable, open, and student-oriented VILNIUS TECH community. I am motivated, responsible, and ready to devote my time and energy to ensure that the VILNIUS TECH Students' Representation continues to grow stronger and remains a place where every student can feel safe, heard, and supported.

For students of tomorrow!

Gabrielė Kovalevskytė
