To the Student Council of Vilnius Gediminas Technical University

Motivational letter

For the position of chairperson of VILNIUS TECH SR BMF

Hello, my name is Vytautas Jasiulionis, and I am a second-year student in the Financial Engineering program at Vilnius Gediminas Technical University. I am currently the chairperson of VILNIUS TECH SR BMF, a first-year student mentor, and a member of the Senate and BMF Council. With this letter, I am applying to continue in the position of chairperson of VILNIUS TECH SR BMF.

From my first year of studies, I have been actively involved in the activities of the faculty community, and joining the Student Representation has allowed me to become more familiar with the structure of the university, its decision-making processes, and the real challenges faced by students. Being in the representation and serving as its chair has given me valuable experience that has helped me better understand how to effectively represent student interests at both the faculty and university levels.

I am running for re-election because I see the importance of continuity and want to continue working purposefully for the benefit of the faculty's students. I will strive to maintain a good atmosphere in our representation, strengthen the team, encourage active involvement, and continue unfinished work. It is important for me not only to address current issues, but also to contribute to the creation of long-term value for the entire university and the Student Council community.

I believe that my accumulated experience, sense of responsibility, and motivation allow me to continue to perform these duties effectively. I appreciate the trust placed in me and

am ready to continue the work I have started and pursue new goals together with the VILNIUS TECH SR BMF team.

For a student-friendly tomorrow!

Vytautas Jasiulionis
