

Hello, dear students,

I am Patricija Samulytė, a second-year Aviation Mechanical Engineering student and the leader of my group. I am writing to you today to express my desire to extend my term as the President of the AGAI Student Association for another year.

The past six months in AGAI SA have been both a great responsibility and an invaluable experience. During this short time, I have grown to love these duties and our entire community even more. By observing students' needs and solving daily challenges, I realized that helping others and representing our institute is exactly where I want to continue realizing my potential.

My primary goals and vision have not changed over this semester, simply because, in less than six months, my team and I physically did not have enough time to complete all the ambitious tasks we set out to do. We have already laid solid foundations and started important projects, but to see real, sustainable results, we need more time to finish what we started.

Therefore, my plans remain consistent:

- To continue the initiated activities to strengthen the bond between association members;
- To actively seek long-term partners and sponsors;
- To further involve every student in the decision-making process;
- To maintain an open and friendly atmosphere where everyone feels equal;
- To finalize the systems being developed for smooth information dissemination;
- To strengthen interdisciplinary cooperation and the integration of international students.

My message remains the same – a more united community and a visible, accessible student association. I want to continue this journey together with you because I sincerely believe in our shared future.
