Chairperson of the VILNIUS TECH SR FSF, Ainaras Jonutis, answers questions regarding the VILNIUS TECH SR FSF Activity Report for the period from 2025 y. october 13 d. – 2026 y. february 12 d. .

Austėja Bernatavičiūtė (PRIfs-23): What are the current results and progress of the internship project?

Answer: We made the analysis of our research of other universities, right now we made conclusions to our research. We will proceed to talk with the vice-dean that is responsible for internships to give any advice on what can be changed

Austėja Bernatavičiūtė (PRIfs-23): What were the hardest things in the last months?

Answer: The hardest thing is to balance work, study, social and student representative life.

Denis Andrusiak (ITfu-25/1): What do you consider to be your biggest achievement in the last months?

Answer: When me and my team went into this term, we had a lot to learn and a lot of motivation to learn these things, so I think we raised our competency and still have the motivation to do more and proceed to do more.

Denis Andrusiak (ITfu-25/1): What do you expect of the next semester?

Answer: We will need to give a lot of time for motivational work, because usually members get less motivated in another semester.

Sofiya Asadchaya (BIfu-22): What are your efforts to include international students in student representation?

Answer: In the last semester we did integration for international students, only four students replied that they will come and only one came. We will also do another one and right now we are communicating with that one person on how we can motivate international students to come. We thought about doing a form for international students where they can write what they want from SR.

9. Presentation of the VILNIUS TECH SR FSF financial report

Chairperson of the VILNIUS TECH SR FSF, Ainaras Jonutis, answers questions regarding the VILNIUS TECH SR FSF Financial Report for the period of 2025 y. october 13 d. – 2026 y. february 12 d. .

Denis Andrusiak (ITfu-25/1): Do you expect increased expenses next semester?

Answer: Yes, as we plan to have training for our members, as we always do it every autumn and spring. We hope to have more revenue, although it's not the main goal. The goal is to spend the least amount of money to narrow the gap.

Austėja Bernatavičiūtė (PRIfs-23): What are the supplies for the group games?

Answer: The supplies were really simple, we had a game where you had to unpack the gift, so we bought wrapping paper for the gifts.

13. Question session

Candidates for the position of chairperson of VILNIUS TECH SR FSF answer the questions.

Jotautas Vaičaitis (MKDf-25/2): Dear candidate, what do you think about your colleague's Aleksas' outfit?

Answer: I think Aleksas is dressed as fashionably as the rest of the team.

Ugnė Riaubaitė (ISf-23/1): Out of all the goals that you have set for yourself and for the team, which do you think is the most challenging?

Answer: The most challenging one would be N2U event analysis and it's rebranding, as we are not sure why the event doesn't get as many people these past few years.

Austėja Bernatavičiūtė (PRIfs-23): You will be entering the 4th year, it is the last year of studies. I think you know how much energy SR consumes, how much energy you need to give, balance to keep, so do you think SR will impact your academic life?

Answer: It will be hard. It is my second year which I do SR jobs, over time I have got better with how I handle a lot of work and how I delegate my work. The quality will not be worse, even though I think it will be hard.

Paulius Žeronas (ISf-22/2): Question about N2U, perhaps the main reason why the event was unsuccessful is because the date collided with other universities event date?

Answer: The event's results could be because of the overlapping of other events. We will keep it noted during our analysis, we will include if other events overlapped during every year of N2U.

Rokas Bloznelis (PRIf-22/1): A suggestion for N2U. The marketing material is usually only the logo and the date of the event. It would be nice to see some videos from what happened in the events.

Answer: That is a good suggestion. It is important how we convey the event.

Austėja Bernatavičiūtė (PRIfs-23): Are you considering including group representatives in the rebranding of N2U?

Answer: I did not think that the group representatives would give any recommendations and I'm happy that they did. We will make a form for students to answer with any feedback.

Jotautas Vaičaitis (MKDf-25/2): Do you like cats or dogs more?

Answer: I think I am a dog person, although I also like cats.

14. Election of the chairperson of VILNIUS TECH SR FSF

The representatives elect a new chairperson of VILNIUS TECH SR FSF by secret voting.

15. Presentation of the results of VILNIUS TECH SR FSF election

Number of representatives participating in the vote– 33

In favour: 26

Against: 3

Abstained: 4

16. Presentations of candidates for the position of VILNIUS TECH SR President

Candidates presented for the position of VILNIUS TECH SR President: Gabrielė Kovalevskytė

17. Question session;

The candidates for the position of VILNIUS TECH SR President answered the questions.

Denis Andrusiak (ITfu-25/1): You put a lot of points in your goals, it looks like a lot of effort. Is this a plan for one semester or do you plan to run for more time?

Answer: The term of president is one year, there is a lot of goals I have set for myself. A lot of goals have already been started to work on, so I hope it is not that difficult to achieve until the end of term.

Viltautė Valeikaitė (PRIfs-22/4): You said something about making the student town prettier, so how much money would you need for that? What exactly do you want to change?

Answer: We will have to talk about it with administration first.

We want to change places that are currently empty, maybe add some sofas or something else for the students.

Jotautas Vaičaitis (MKDf-25/2): Do you like cats or dogs more?

Answer: I prefer cats more, I love them a lot. I also love dogs as well. At home, I have 3 dogs and 2 cats.

Oksana Bursova (ASTfm-25): You mentioned that you want to do some reworks with academic calendar as other universities have a spring break. With our current calendar, our exam session ends at the end of June. If you would push third exams closer together, then it would essentially mean that the semester would end in the middle of July instead of June. Would these changes make the academic year longer?

Answer: First of all, we have to talk to the administration, we will follow the example of other universities. They do not have a longer year, so hopefully we will not have a longer academic year, and we will have a spring break.

Paulius Žeronas (ISf-22/2): How are you going to achieve an equal quality of studies for local and international students? I have multiple peers that say their lectures are not on the same level, so how do you plan to make them equal?

Answer: We will have surveys, and we plan to implement a requirement of B2 level of English for lecturers.

Papildymas: Do you think that you have a power to fire them if they fail the English assessment? Because some lecturers have their modules for years, they have learnt them by heart but cannot communicate in English. Is it worth to fire them?

Answer: We will have to see how professors are well-off in English. It is a really difficult process to fire a lecturer, what we will try to do is we will communicate with the administration and try to implement some English language courses. We are not talking about the competence of their subject, only on their English skills.

Emilija Blaškevič (MKDfs-23): If the lecturers do not have sufficient English skills, they should only teach Lithuanian groups. The university should handle this problem.

Answer: We have to work towards this, as our university is international.

Ugnė Riaubaitė (ISf-23/1): Which goals have your highest priority?

Answer: Equal quality of studies for local and international students.

Denis Andrusiak (ITfu-25/1): A question regarding dorm representatives. Will they represent per floor or per building?

Answer: Most likely per floor.

18. Voting on the recommendation for the position of VILNIUS TECH SR president
