## **MOTIVATION LETTER**

### **For the position of VILNIUS TECH SR Control Commission Member**

Dear community members,

I am Paulina Avižienytė, third-year architecture student at Vilnius Gediminas Technical University. I am running for Students' Representation Control Commission because I want to contribute to the effectiveness, efficiency and strengthening of the representation's activities.

Even before entering university, I knew I wanted to become a member of the Students' Representation. As part of the organization, I have always aimed to act reliably and transparently. During my term as chairperson, I was able to address conflict situations appropriately and find compromises that satisfied different interest groups. I am a rational and critically thinking person who pays attention to facts and enjoys analysing specific issues and events. I value clarity and responsibility, and I expect the same from my surroundings.

Since the Students' Representation represents all students, I believe it is important for Control Commission to ensure that the organization's processes operate reliably and responsibly for the benefit of all students. I would like the Control Commission to be perceived not as a controlling body, but as a supportive mechanism that helps the organization achieve its goals more smoothly.

As a member of the Control Commission, I would aim not only to perform a supervisory role, but also to actively contribute to improving the organization's activities, the efficiency of its processes, and its transparency. I am committed to dedicating the time and effort necessary to carry out these responsibilities with quality.

Kind regards,

Paulina Avižienytė
